About Me

A Full Stack Developer with over 5 years of global IT industry experience and contributed to over 100 Web-related projects across Australia, New Zealand, USA, UK, UAE, Sri Lanka, & Kyrgyzstan using HTML5, CSS3, JavaScript, jQuery, PHP, Go, WordPress, ReactJs, HUGO, HubL & Hubspot with a strong focus on SEO, Web optimisation, Digital Marketing, Responsive Web Development, and meticulous attention to detail.

Work Experience

Senior Full Stack Engineer
2022 - 2024

Adventus.io   Australia / Sri Lanka

Through its platform for student recruitment, Adventus.io aims to transform international education access through a B2B startup based in Australia. In my position as a Senior Full Stack Engineer in the Marketing team, I developed and managed the website, landing pages, and web tools to gain more leads and make them easy to use for other team members.

Web Developer
2021 - 2022

Surge Global   Sri Lanka

Surge Global is a Product Engineering & Growth Marketing agency based in Sri Lanka. I directly worked with the web & designing teams to build websites for businesses across the globe using many frameworks and tools .

Junior Software Engineer
2019 - 2021

Attractor Solutions   Australia   **+**   **Duran IT Pvt Ltd**   Sri Lanka

Duran IT and Attractor Solutions collaborated to develop websites, digital marketing, and CRM solutions for hundreds of Australian & New Zealand businesses. As a member of the team, I contributed to the development, maintenance, and optimization of a number of websites.
